Fürth, March 5, 2020

SINCE 1886

RWS Reloading Product Line New Design and Range Expansion

Fürth, Germany. Self-loading and reloading or “tailor-making” one’s own shells opens up all new possibilities for both hunters and marksmen. That is why the RWS reloading product line now has a new design. It combines a new practical packaging concept with an extensive product range expansion.

The **casing** is the heart of a shell. Dimensional stability, safety, and reloading capacity are only a few of the essential properties that a conscientious reloader requires of a casing in order to achieve maximum performance. And that is just what casings from RWS offer. Now, however, the premium quality of RWS casings is not only reflected in the product but also in the new packages.

The benefits of the new packaging at a glance:

- Carton boxes with extendable drawers
- Easy access to the casings, even when boxes are stacked on top of each other
- Merchandise protected by perforation sealing
- Two fields for labeling with current load data
- Caliber specification visible, even when boxes are stacked on top of each other
- Ruler with the metric (cm) and imperial system (inch)
- Table with various conversions – both for converting metric data to imperial data and vice versa

RWS premium bullets are also available as of right now in new packaging, providing greater comfort when reloading.

- Carton boxes with extendable drawers
- Easy access to the bullets, even when boxes are stacked on top of each other
- Merchandise protected by perforation sealing
- All important specifications (bullet, caliber, bullet weight) visible, even when boxes are stacked on top of each other

In addition to the new packaging design, the product range is being expanded by the following products as well:

| | Article no. | Diameter / caliber | Bullet type / casing | Bullet weight [g/gr] | Content per package [pcs.] |
|------------|--------------------|---------------------------|-----------------------------|-----------------------------|-----------------------------------|
| NEW | 2416958 | 6.5 mm | Evolution | 10.1 / 156 | 50 |
| NEW | 2416960 | .270 | Evolution Green | 6.2 / 96 | 50 |
| NEW | 2416967 | .270 | Speed Tip Pro | 9.1 / 140 | 50 |
| NEW | 2416959 | .270 | Evolution | 10.0 / 154 | 50 |
| NEW | 2416966 | .30 | Scorion HPBT- Match | 10.9 / 168 | 50 |

RWS is a quality brand of RUAG Ammotec GmbH

The RWS brand originated with the Rheinisch-Westfälische Sprengstoff-Fabriken, which came to Dynamit Nobel in 1931, and then to RUAG Ammotec. Both demanding hunters as well as sport shooters from around the world value the quality that comes from Fürth. RWS offers not only rifle cartridges, but also shotgun shells, rimfire cartridges, and air pellets.

RUAG Ammotec belongs to the Swiss technology corporation RUAG Holding AG, which is headquartered in Bern.

RUAG develops and markets internationally sought-after technology applications in the fields of aerospace and defence for use on land, in the air and in space. 56% of RUAG's products and services are destined for the civil market and 44% for the military market. The Group is headquartered in Bern (Switzerland). It has production sites in Switzerland and in 15 other countries in Europe, the USA and Asia-Pacific. RUAG generates sales of approximately CHF 1.96 billion and has over 9,200 employees – 400 of whom are trainees.
