SCORION BULLETS

Unparalleled precision

Eight in one go – RWS's own bullet family, the Scorion, ticks all the boxes with an expanded portfolio. The new precision projectile is now also available in the calibres 5.6 mm (.224), 6.5 mm (.264), .30 (.308) and 8.6 mm (.338) as well as with a variety of bullet weights.

Boasting outstanding ballistic properties, RWS's very own Scorion bullet raises the game for consistency and accuracy. The SCORION describes an extraordinarily flat and stable trajectory across all ranges – even with crosswind.
